Training for Principals and Orientation for Providers:  
*Partnership Tools and Models*

Presented by Seenae Chong and Tracey Logan

The Complementary Learning Department assists schools, non-school supports, and community partners in providing maximum **academic, health and wellness, and social-emotional** benefit to students through the development of **strong, intentional linkages** between families, schools, learning supports, and community institutions. The **intentional alignment** and **multiple linkages** of **complementary** learning create **pathways** that help every child to succeed.

The services provided by Complementary Learning focus on working with schools to find meaningful ways for **two or more learning contexts**, such as school and after-school, or family and preschool, **to connect** so that they work toward the same or **complementary** ends -  
- ultimately improving one another's effectiveness. These **purposely linked** supports improve **learning and developmental outcomes** for children and youth.

## *Project Summary:* **Frame**

# *Project Summary*

✚ **Context:** There are vibrant partnerships in OUSD between many schools and providers; however, they are idiosyncratic. CL wants to “systematize” complementary partnership between schools and agencies through an orientation for providers/training for principals.

✚ **Question:** What is important to include in an orientation focused on partnerships?

✚ **Process :** Team research project using literature reviews, case studies, and interviews

- 
- A grayscale map of the San Francisco Bay Area serves as the background for the text. The map shows the city of San Francisco, the surrounding hills, and the bay. Major highways like I-805, I-580, and I-880 are visible. Numerous city names are labeled, including Berkeley, Piedmont, Alameda, and San Leandro. The map is overlaid with a grid of dots.
- Many successful partnerships
  - Organizational cultures as strengths and potential points of conflict
  - Expectations and communication
  - Bureaucracy

*Lay of the Partnership Land:*  
CL program managers,  
Principals, Providers

❖ **SFUSD:** Database, Orientation, Site Agreements

❖ **NYC Dept of Ed:** Guidebook

❖ **BPS:** Indicators of Quality

❖ **Cincinnati Public Schools:**  
“Match-making” Services

*National Best Practices:*

**Models and Tools**

- 
- A photograph of a workbench with various tools. In the upper right, there is a blue and yellow power drill. Below it, a yellow and black spirit level is visible. In the center, a yellow folding square is laid out. To the right of the square, there are several red-handled pliers and a yellow pencil. In the lower left, there is a small pile of silver screws. The background is a light-colored wooden surface.
- ❑ Orientation as a “kit of parts”
  - ❑ Required site agreements/site orientations
  - ❑ Strength/needs assessment to focus partnerships
  - ❑ Reference binder for administrative procedures, templates
  - ❑ CBO matrix
  - ❑ Site Coordinator

## Recommendations

✧ Ensure that we've heard enough voices to represent the scope of full scope of the project

✧ Configure Orientation for Providers and Training for Principal using best practice research and what we heard

- ★ How do we create a standard orientation that does not dilute content and effectiveness?

- ★ How do we create a space to for an ongoing dialogue on the competing demands and competing bottom lines between schools and providers?

- ★ What should the District's role be in providing a “soft skills” type of orientation for providers/trainers for Principals? What form should/could it take? How do we make it an adaptive/interactive learning process?

✧ Development of other tools for partnership

- ★ How do we prioritize partnership for both principals and providers?

**Phase 2: Tracey Logan**
